PROGRAM OVERVIEW

In today's fast-paced digital world, project managers must leverage cutting-edge technologies to stay ahead. The AI-Enabled Project Manager program, designed by AUC, equips professionals with the skills to integrate AI into project management workflows. This intensive 2-day executive education program combines Harvard-level case studies, MIT-inspired hands-on labs, and Oxford-style peer discussions to deliver a transformative learning experience.

2 DAYS
FACE-TO-FACE
TRAINING

14 CONTACT HOURS

CASE STUDY
WITH AI PROMPTS

WHY THIS PROGRAM?

- **Learn from the Best:** Curriculum designed by AI and Project management expert.
- **Hands-On Practice:** Work with real-world AI tools and Frameworks to solve complex project challenges.
- **Industry Network:** Connect with a diverse group of professionals and industry leaders.
- **Immediate Impact:** Apply AI strategies to your projects right away.

PROGRAM HIGHLIGHTS

- **Duration:** 2 Days **(In-Person)**
- **Format:** Interactive lectures, case studies and hands-on labs.
- **Capstone Project:** Applying AI to Your Organization Project.

WHO SHOULD ATTEND

- Project Managers and Team Leads

- Agile Coaches and Scrum Masters

- IT and Operations Managers

- Entrepreneurs and Startup Founders

- Professionals seeking to upskill in AI-driven project management

COURSE OUTLINE
